# JAMANA UPENDRA

# **EDUCATION**

Vishnu Institue of Technology ,Bhimavaram 2022 - 2026

B Tech |Artificial Intelliegence And Machine Learning - 8.22

AP Model College,Bhamini 2021 - 2022

Intermediate | MPC - 78.1%

AP Model School,Bhamini 2019 - 2020

SSC - 97.33

### **TECHNICAL SKILLS**

•Programming Languages: Python (Advanced), Java (Intermediate), C (Intermediate)

- •Machine Learning: TensorFlow, Scikit-learn, Natural Language Processing (NLP), Deep Learning
- •Database Systems: MySQL, PostgreSQL, MongoDB
- •Developer Tools: Git, GitHub, VS Code, Jupyter Notebook
- •Front-End Development: HTML, CSS, JavaScript

## **WORK EXPERIENCE**

## **AWS Virtual Internship (Cohort 9)**

- •Completed a 10-week virtual internship focused on cloud computing and Amazon Web Services (AWS).
- •Deployed scalable and efficient applications on AWS, optimizing resource utilization and performance.

## **Codeway Internship**

- •Built an SMS spam classification system achieving 95% accuracy using TF-IDF, Naive Bayes, and SVM
- •Enhanced customer churn prediction accuracy by 10% using advanced machine learning models like Logistic Regression and Gradient Boosting.

#### **PROJECTS**

#### **Summarization Tool**

- •Designed a multi-modal summarization platform utilizing advanced technologies such as BART, mBART, Whisper, and EasyOCR for efficient content processing.
- •Enabled seamless content extraction and summarization across diverse formats, including images, audio, text, and video.

#### Weather API

•Designed a real-time Weather API leveraging airspeed, humidity, and temperature data to improve forecast accuracy by 15%.

# **CERTIFICATIONS**

- Certified in Machine Learning and NLP for the Telugu language, with hands-on experience in regional text processing.
- Completed Introduction to Tableau certification via Infosys Springboard, focusing on data visualization and dashboards.

## **AWARDS**

- Selected for National Means and Merit Scholarship
- Achieved Award in district-level Math competition
